Independent Z-Test for Percentages

Upper case letters indicate significance at the 95% level.

"*" Denotes Chi-Square where at least one cell has an expected value of less than 1 or more than 20% of the cells have an expected value of less than 5.

6. Statement A: The City's police should step up its removal of homeless camps along Boulder Creek and in other areas of the city. Statement B: Camping bans only serve to move the homeless from one place to another. Which statement comes closer to how you feel, Statement A or Statement B? If you are not sure, just say so.
